8th International Lean Digital Summit
Lean Digital Workshop
Wednesday 9 October 2019, Paris

Creating and Sustaining a High-Performance Learning Organization

Don't miss this half-day, hands-on workshop with Steve Bell and Karen Whitley-Bell

In the drive for performance improvement and agility, today's leaders have a nearly infinite choice of approaches, methodologies and tools. We are all in search of the answers to the question: What are the key conditions that optimize performance, and accelerate learning and agility within teams and across the enterprise?

Steve Bell is a pioneer of Lean IT and Lean Digitization, and two-time winner of the Shingo Publication Award. He is the author of Lean IT, Run Grow Transform, Lean Enterprise Systems, Accelerate and numerous other published works. His career spans the evolution of enterprise-wide information technology, serving as a master coach bridging Lean, Agile, DevOps, and other practices to support high-performance and enterprise-wide learning.
He is a co-founder of Digital Lean Strategies, LLC and Lean4NGO (a global forum bringing the NGO/nonprofit and continuous improvement communities together for shared learning and practice).

Karen Whitley Bell is a master coach, contributor to Accelerate, and editor of numerous publications on the topic of Lean IT and the Digital Lean Enterprise. She is a co-founder of Digital Lean Strategies and Lean4NGO.
Karen and Steve are researching and writing their next book on High Performance Learning Organizations.

Creating and Sustaining a High-Performance Learning Organization

A workshop with Steve Bell and Karen Whitley-Bell

In this half-day, hands-on workshop, Steve and Karen will share learnings from the Shingo Award winning book Accelerate, taking you on a fast-paced discussion of these key conditions, and associated practices across a variety of complementary disciplines including Lean, DevOps, Agile, Scrum, Lean Startup and others. They will also guide you to develop an action plan to conduct a focused Gemba/assessment of your enterprise's current condition.

During this workshop you will:

- Learn how to identify, prioritize, and measure current state and improvements toward these key conditions.
- Develop an iteration-zero assessment plan to go to Gemba in your organization, so that you can prioritize improvement for rapid learning, agility, and high performance.

Date: Wednesday 9 October 2019
Hour: 8:30 am to 1:00 pm
Venue: Espace Saint Martin, 199 bis rue Saint Martin, Paris 3e
Rate: 300€HT
Register on www.lean-digital-summit.com
